Core Competency Pvt. Ltd. was established with a customer centric approach to provide end to end customer solutions. We create, deliver and support adaptable solutions and services worldwide, to help dynamic organizations manage their business and training needs effectively.

We specialise in customised elearning and also provide some off the shelf Computer-based training modules. We provide an enriching array of:

- Web-based training modules
- Computer-based training modules
- Instructor led training material
- Virtual classroom training
- Blended learning training modules

Our courses are designed on our in-depth knowledge on training needs analysis. Our content team caters to a wide range of learning styles and different target audiences. Core Competency's in house creative graphics team helps add value to the learning experience by creating rich and superior visuals in the form of 2D and 3D graphics.

Core Competency boasts of an in house 1.2 SCORM compatible Learning Management System. We can cater to all your training requirements as we provide competency management and also have an in house online assessment system which can be customised to suit your requirements.
